Ticker: STLR CN

1Q25 cash: C\$24.7m

Project: Tower Gold; Hollinger / Colomac

Market cap: C\$114m

Price: C\$0.92/sh

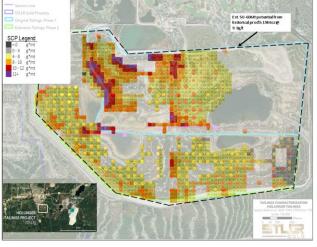

Country: Canada (Timmins / NWT)

REC. (unc): BUY TARGET (unc): C\$3.40/sh RISK RATING (unc): HIGH

Today's drilling at Hollinger Tailings project adds ~198koz by our estimates, lifting our "drilled potential" to SCPe 262koz @ 0.33g/t with 25% of the assays still pending, and while the grades are averaging 0.33g/t, we estimate 35koz at 0.53g/t at a nominal 10-gram meter cutoff concentrated in the northwestern portion of Hollinger in Phase 1. By our estimates, there is still ~20% of the potential target to be covered by drilling and ~2800m pending assays still. Any higher grades could be material, albeit the metallurgical test work ahead of the 2H25 MRE is key. Big picture, the stock is cheap and Hollinger is a free option at these levels, providing a potential funding opportunity in our view. For now, we maintain our BUY rating and C\$3.40/sh PT based on 0.1xNAV5%-3,000 for our SOTP valuation. STLLR remains attractively valued, trading at just US\$4/oz M&I&I for its large 16Moz global MRE vs pre-PFS peer developers at US\$49/oz and at only ~US\$7/oz on an inventory basis vs >US\$121/oz, a gap we think closes with catalysts on the horizon, as Tower advances through engineering / permitting and Hollinger advances through MREs and Met studies.

Hollinger tailings drilling, 27.5m @ 0.5g/t Au from surface; progressing to MRE and Met testing

Today, STLLR Gold reported on drilling results from 236 holes from the 423 completed sonic drill holes with ~75% of assay results now received. Highlights from today's results include **27.5m @ 0.5g/t Au** (incl. 8.5m @ 1.0g/t), **23.8m @ 0.5g/t** and **25.5m @ 0.5g/t** (incl. 11.5m @ 0.6g/t) all from surface. STLLR is observing higher-than-average grades in northern Hollinger (phase 1), with overall results supporting continued advancement to a potential MRE and further economic evaluation. STLLR is advancing with a targeted met testing program, planning and prep work is currently underway with anticipated 2H25 results.

Why we like STLLR

- 1. Large 16Moz global resource endowment in Canada across two assets
- 2. Flagship Tower Gold: 5.2Moz PEA inv. / 273koz pa, on infrastructure near Timmins ON
- 3. Colomac PEA: 2.6Moz @ 1.3g/t OP pittable / 782koz @ 4.1g/t UG for >300koz pa in NWT
- 4. Control >1,000km² in prime underexplored Archean greenstone belts

Catalysts

- 2025: Drilling at Tower incl. Jonpol and Garrcon
- 2025: Permitting progress at Tower and Colomac
- 2025: Hollinger tailings resource, metallurgy, and development plans
- 2027: Tower PFS

UK RESIDENTS: SCP Partners UK Limited ("SCP UK") is an appointed representative of PillarFour Securities LLP which is authorized and regulated by the Financial Conduct Authority. This document has been approved under section 21(1) of the FMSA 2000 by PillarFour Securities LLP ("PillarFour") for communication only to eligible counterparties and professional clients as those terms are defined by the rules of the Financial Conduct Authority. Its contents are not directed at UK retail clients. PillarFour does not provide investment services to retail clients. PillarFour publishes this document as non-independent research which is a marketing communication under the Conduct of Business rules. It has not been prepared in accordance with the regulatory rules relating to independent research, nor is it subject to the prohibition on dealing ahead of the dissemination of investment research. It does not constitute a personal recommendation and does not constitute an offer or a solicitation to buy or sell any security. SCP UK and PillarFour consider this note to be an acceptable minor non-monetary benefit as defined by the FCA which may be received without charge. This is because the content is either considered to be commissioned by SCP UK's clients as part of their advisory services to them or is short term market commentary. Neither SCP UK nor PillarFour nor any of its directors, officers, employees or agents shall have any liability, howsoever arising, for any error or incompleteness of fact or opinion in it or lack of care in its preparation or publication; provided that this shall not exclude liability to the extent that this is impermissible under the law relating to financial services. All statements and opinions are made as of the date on the face of this document and are not held out as applicable thereafter. This document is intended for distribution only in those jurisdictions where PillarFour is permitted to distribute its research.

IMPORTANT DISCLOSURES FOR U.S. PERSONS: This research report was prepared by SCP Resource Finance LP ("SCP"), a company authorized to engage in securities activities in Canada. SCP is not a registered broker/dealer in the United States and, therefore, is not subject to U.S. rules regarding the preparation of research reports and the independence of research analysts. This research report is provided for distribution to "major U.S. institutional investors" in reliance on the exemption from registration provided by Rule 15a-6 of the U.S. Securities Exchange Act of 1934, as amended (the "Exchange Act"). Any U.S. recipient of this research report wishing to effect any transaction to buy or sell securities or related financial instruments based on the information provided in this research report should do so only through Sprott Global Resource Investments Ltd. ("SGRIL"), a broker dealer in the United States registered with the Securities Exchange Commission ("SEC"), the Financial Industry Authority ("FINRA"), and a member of the Securities Investor Protection Corporation ("SIPC"). Under no circumstances should any recipient of this research report effect any transaction to buy or sell securities or related financial instruments through SCP.

SGRIL accepts responsibility for the contents of this research report, subject to the terms set out below, to the extent that it is delivered to a U.S. person other than a major U.S. institutional investor. The analyst whose name appears in this research report is not licensed, registered, or qualified as a research analyst with FINRA and may not be an associated person of SGRIL and, therefore, may not be subject to applicable restrictions under FINRA Rule 2241 regarding communications by a research analyst with a subject company, public appearances by the research analyst, and trading securities held by a research analyst account. To make further inquiries related to this report, United States residents should contact their SGRIL representative.

ANALYST CERTIFICATION / REGULATION AC: The analyst and associate certify that the views expressed in this research report accurately reflect their personal views about the subject securities or issuers. In addition, the analyst and associate certify that no part of their compensation was, is, or will be directly or indirectly related to the specific recommendations or views expressed in this research report.

SCP RESOURCE FINANCE EXPLANATION OF RECCOMENDATIONS: Should SCP issue research with recommendations, the research rating guidelines will be based on the following recommendations:

BUY: The stocks total returns are expected to be materially better than the overall market with higher return expectations needed for more risky securities markets

NEUTRAL: The stock's total returns are expected to be in line with the overall market

SELL: The stocks total returns are expected to be materially lower than the overall market

TENDER: The analyst recommends tendering shares to a formal tender offering

UNDER REVIEW: The stock will be placed under review when there is a significant material event with further information pending; and/or when the research analyst determines it is necessary to await adequate information that could potentially lead to a reevaluation of the rating, target price or forecast; and/or when coverage of a particular security is transferred from one analyst to another to give the new analyst time to reconfirm the rating, target price or forecast.

NOT RATED (N/R): The stock is not currently rated
